

## F24-60

### Joystick Controller

### Double Joystick with 5 steps

F24-60 series is best for Tower Cranes, Overhead Cranes and Concrete Plumps. F24-60 is equipped with the most advanced safety features for making the entire operation safe.

#### Features:

- Fully programmable relay configuration with maximum 16 relays output per command (No extra extension unit required)
- Durable nylon-fiber housing for extra shock resistance
- Operating range up to 100 meters
- Pre-wired standard cable making installation quick and easy
- New waist belt provides maximum comfort for the operator (Optional)
- 3-stage LED battery power indicator
- Acceleration delay time control (Provides smooth movement for multiple speed cranes)
- Safety features
  - 4.3 billion unique ID code
  - Hamming code
  - Enhanced Watch-Dog circuit

## F24

### Radio Remote Control

#### Reliable. High Performance. Economic.

Radio Control System best for crane, mobile, forestry application, lift equipment.

#### Features:

- Durable nylon-fiber housing for extra shock resistance
- Low power consumption with 2 AA batteries (last up to 2 months in normal operation)
- Operating range up to 100 meters
- Programmable function setting through Windows based software
- Economic efficiency, ease of operation
- Pre-wired standard cable making wiring procedures easier
- 100% compatible components reducing stock of spare part
- Safety features
  - 4.3 billion unique ID code
  - Hamming code
  - Enhanced Watch-Dog circuit
